

Easy Access to Cash

Although the frequency of non-cash payments is growing globally, cash retains its status as the world's number one payment method. Nine out of 10 payment transactions are handled in cash worldwide, and the total volume of global cash withdrawals has risen 8% each year. Knowing this, it is hardly surprising that the number of global ATMs is forecasted to grow continually as consumer demand for convenient cash access remains pronounced.

Philosophy

Our cash-dispensing systems enable you to expand consumer access to cash while providing simple, seamless transaction experiences. It is designed for fast, easy upgrades to satisfy additional requirements as they emerge. You also have the option to integrate advanced functionality, such as mobile-initiated cash transactions driven by QR codes or NFC technology.

Optimize Cash Management

The CS 2060 is an indoor cash dispenser ideal for use in branch and lobby environments that offer expanded functionality such as passbook or A4 statement printing and coin processing. It is also a part of our Cash Cycle Management™ Solutions portfolio, providing convenient cash access while optimizing the cash-replenishment cycle. Powered by innovative software and end-to-end cash-management services, the system guarantees audit compliance and maximum transparency of all cash inventories at all times.

Reliable, Intuitive Technology

It features a consumer-pleasing construction with a 17-inch monitor, expanded printing options and coin dispensing. A broad range of operating information is delivered automatically, enabling proactive and efficient system management, and a robust suite of advanced security solutions keeps assets safe.

Features

MEDIA TECHNOLOGY

CMD (Cash Media Dispenser)

- Withdrawals of up to 60 notes in a bundle
