CI-100CDX

Coin deposit system

The CI-100CDX is a front-office coin deposit solution, designed to enhance the customer experience in retail lobbies. It enables customers to deposit coins effortlessly, receive printed vouchers, and redeem them at checkout for a smooth and convenient process. The system offers flexible storage options to accommodate diverse operational needs. With CI-100CDX, retailers can provide a smarter, safer, and more innovative service that gives customers a reason to repeatedly visit your store.

Euro

As part of the CASHINFINITY™ solution, the CI-100CDX is a high-volume coin deposit system that enables retailers to deliver a new and seamless coin-to-voucher exchange service for their customers.

Boost foot traffic and customer engagement

Install the CI-100CDX in your retail lobby—customers deposit coins and receive vouchers to redeem at the checkout, giving them a reason to visit more often.

Turn deposited coins into store value

Collected coins can be reused as change at checkouts. This reduces the need to order additional coins.

Advertising opportunities and revenue generation

When not in use, the display can show advertising to promote your store goods or generate extra revenue by featuring external advertisements.

Flexible storage options

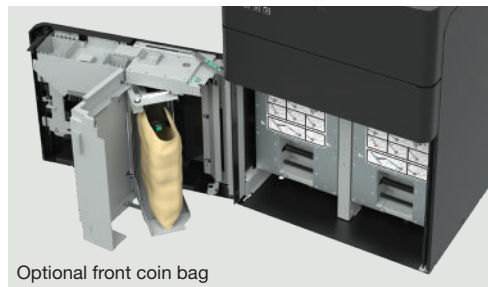

- The main body offers two configurations: 2-bin storage or 8-coin bag storage.
- The optional front coin bag, with separate access from the main storage section, can be used for any of the following:
 - Replenishing the CI-100CX in the back office (if available)
 - Collecting specified coin denominations
 - Serving as a coin overflow container

2-bin storage

8-coin bag storage

Optional front coin bag
